APVMA Registration Number:	63850

Chaindrite ES Crawling Insect Spray is the *ideal product for problem solving in commercial situations where concealed application is necessary.*

APPLICATION

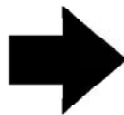

PESTS	APPLICATION	HOW TO USE
Ants	Spray around garbage bins and food disposal areas and entry points	Shake can well before use using. Hold about 15 - 20 cm from the surface. The product can be used to form a residual barrier, or as a direct kill
Cockroaches	Spray skirting boards, under cupboards, behind stoves and refrigerators, and other places where cockroaches live and hide.	
Fleas	Infested rooms should be closed and treated by thoroughly spraying the carpet. Ventilate the room 4 hours after use. Ensure adequate ventilation during use.	
Spiders	Spray where cobwebs appear.	
Carpet Beetles	Lightly spray under carpets, lounge chairs and along skirting boards.	
Silverfish	Spray architraves, bookshelves, and other areas where paper is stored.	
Clothes Moths	Spray storage areas and in emptied drawers and wardrobes.	

CONSISTENT QUALITY RESULTS IN BETTER PERFORMANCE

CHAINDRITE Extra-Strength(ES) Crawling Insect Spray

UNIQUE FEATURES

- Flexible extension tube that provides a smooth delivery
- Contains professional Strength actives for fast knock-down and long residual activity.
- Is an oil-based formulation that provides enhanced penetration and killing efficacy over water-based aerosols.

COMPETITIVE BENEFITS

- Easy to apply and use, without any sputter
- Imiprothrin - excellent flushing and knock-down agent. Cypermethrin - long residual.
- The product will not foam like water-based aerosols and will consistently deliver the results, inline with your customers expectations.

Consistent Quality Products result in less re-claim calls and more PROFITS\$
